

TOLU ONI

Calgary, AB | (587) 229-6295 | toluoni@outlook.com

EXECUTIVE PROFILE

Cybersecurity and infrastructure executive with 20+ years of IT experience, including 15+ years in cybersecurity and 10+ years in senior security leadership. Proven record of building and maturing enterprise security, risk, governance, cloud, identity, compliance, and infrastructure programs in complex environments. Experienced in leading multidisciplinary teams, shaping multi-year roadmaps, advising executives, governing major incidents, and aligning security architecture with business strategy. Strong grounding in ISO/IEC 27001, NIST CSF, COBIT, CIS Controls, SOC 2, MITRE ATT&CK, PCI DSS, SOX, cloud and AI security, identity governance, and enterprise risk management.

CORE LEADERSHIP STRENGTHS

- Cybersecurity Strategy & Roadmaps
- Security Architecture & Zero Trust
- Incident Response & Business Continuity
- Cloud Security & Governance
- Security Awareness & Culture
- AI Governance & Secure Adoption
- Executive Advisory, Board-Level Reporting & Corporate Governance
- Infrastructure & Cloud Operations Leadership
- Identity & Access Management
- Risk, Compliance & Audit Governance
- Financial Optimization & Cloud FinOps (Azure)
- Vendor & Third-Party Risk Management
- Automated Operations & AI Enablement
- Team Leadership & Operating Model Design

PROFESSIONAL EXPERIENCE

Director, Cyber Security & Infrastructure

Sep. 2024 - Present

United Farmers of Alberta (UFA) Co-operative Ltd. | Calgary, AB

- **Portfolio Accountability:** Lead the unified Cybersecurity and Infrastructure portfolio, directing strategy for enterprise security, cloud operations, network engineering, identity infrastructure, and data resilience across a distributed cooperative enterprise.
- **Business Alignment:** Championed the convergence of cybersecurity and infrastructure operations while improving operational agility, modernizing core network services, and reducing enterprise technology risk.
- **Retail, E-Commerce & Payment Security:** Oversee security architecture and infrastructure support for consumer-facing environments, including retail locations, e-commerce platforms, payment security architectures (PCI DSS), distribution centers, and credit/financing services.
- **Cyber Remediation & Maturity:** Serve as executive sponsor for enterprise cyber remediation initiatives, including Data Loss Prevention (DLP) rollout, Microsoft Entra ID migration, identity governance automation, and breach & attack simulation (BAS) process implementation.
- **Cloud Modernization & Automation:** Orchestrate a multi-phase data center exit and cloud optimization initiative, transitioning legacy workloads into Azure and advancing Infrastructure as Code (IaC) practices to reduce technical debt and improve cloud cost efficiency.
- **AI Governance & Safety:** Establish enterprise guardrails and risk management expectations that enable business units to safely use generative AI, AI-assisted workflows, and automation while safeguarding corporate data and privacy.
- **Incident Readiness & Resilience:** Strengthen operational resilience through out-of-band crisis communications planning, disaster recovery governance, and cross-functional response playbooks for critical business services.
- **Financial & Vendor Stewardship:** Manage capital and operational investment planning, vendor rationalization, partner management, and security tooling optimization across cybersecurity and infrastructure initiatives.

- **Executive Advisory & Board Reporting:** Deliver cyber risk metrics, executive briefings, and strategic recommendations to senior leadership and governance forums, translating risk profiles into funded, executable corporate initiatives.

Director, Cyber Security & IT Compliance

Jan. 2022 - Aug. 2024

United Farmers of Alberta (UFA) Co-operative Ltd. | Calgary, AB

- Led the Cyber Security and IT Governance team, authoring the corporate blueprint for enterprise cyber risk reduction while systematically modernizing the security infrastructure stack.
- Provided strategic leadership for major incident response, business continuity management, compliance frameworks (PCI DSS, ITGC) management, and executive risk reporting to senior leadership.
- Directed the development of new and enhanced security capabilities aligned to enterprise risk, regulatory, and operational needs.
- Strengthened governance across multiple workflows, including vendor management, access control, product development, and major incident management.

Senior Manager, Cyber Security & Governance

Aug. 2019 - Dec. 2021

United Farmers of Alberta (UFA) Co-operative Ltd. | Calgary, AB

- Built and matured the enterprise cybersecurity program from the ground up, establishing strategy, governance, team structure, and core capabilities across security operations, IAM, cloud security, ERP security, vulnerability management, and PCI DSS.
- Recruited, coached, and retained a high-performing team of 10 security professionals across security operations, identity and access management, ERP security, and compliance.
- Chartered the corporate Architecture Review Board (ARB) to ensure secure-by-design practices across major technology and software initiatives.
- Successfully delivered enterprise-wide initiatives, including SIEM modernization, vulnerability management implementation, data classification, cloud security hardening, and zero-trust perimeter network modeling.

Manager, Cyber Security & Risk

Nov. 2018 - Jul. 2019

Alberta Energy Regulator (AER) | Calgary, AB

- Managed the delivery of the enterprise information security program, including security strategy and transformation plan, corporate security policies, access governance, security monitoring, threat intelligence, and external stakeholder engagement.
- Built a continuous security monitoring strategy utilizing centralized log aggregation and behavioral correlation engines to identify advanced threat vectors.
- Collaborated with product development teams to integrate application security testing (SAST/DAST) earlier in the software development lifecycle.

Manager, Security, Risk & Enterprise Architecture

Mar. 2018 - Oct. 2018

Alberta Energy Regulator (AER) | Calgary, AB

- Served as Practice Lead across security, risk, and enterprise architecture, implementing a security awareness program that achieved more than 95% annual completion.
- Managed security vendors, including service selection, contract negotiation, master service agreements (MSAs), and SLA compliance.
- Provided authoritative advice on security control requirements in collaboration with legal, information management, internal audit, and other functions.

Information Security Specialist**Aug. 2015 - Feb. 2018**

Alberta Energy Regulator (AER) | Calgary, AB

- Served as lead security architect, developing security control profiles and reference architectures to support regulatory platform migrations using AWS cloud services.
- Integrated review of third-party assurance reports into acquisition and vendor management processes, strengthening supplier risk oversight.
- Introduced an automated password management system that improved enterprise security posture and increased account management effectiveness by 15%.

Senior Advisor, IT Risk and Compliance**Dec. 2012 - Aug. 2015**

University of Calgary | Calgary, AB

- Subject matter expert for information security risk and compliance, IT audit coordination, risk assessment, policy maintenance, and security advisory services.
- Established and maintained the University's PCI DSS compliance matrix, executing self-assessment questionnaires (SAQs) and technical audit coordination.
- Managed security reviews of planned initiatives and produced threat risk assessment reports articulating risks and control recommendations.

Business Systems Leader, Information Security**Sep. 2008 - Oct. 2012**

Coca-Cola Hellenic Bottling Company (CCHBC) | Lagos, Nigeria

- Country Lead for the information security program, including developing the enterprise security strategy, managing strict SOX compliance protocols, and leading the resolution of complex internal and external IT audit exceptions.
- Led evaluation, selection, and implementation of SIEM, vulnerability scanning, malware defense, and digital forensics capabilities.
- Managed the delivery of vulnerability and penetration testing activities for projects and operational systems.

Senior Analyst, IT Security**Jun. 2008 - Aug. 2008**

MTN Telecommunications Group | Lagos, Nigeria

- Served as a senior information security consultant and trusted digital forensics and incident response (DFIR) advisor within the CISO Office, advising senior leadership on enterprise-wide information security matters.

Manager, IT Security**Mar. 2005 - May 2008**

Coca-Cola Hellenic Bottling Company (CCHBC) | Lagos, Nigeria

- Pioneer manager for the country's IT security program, responsible for aligning local security practices with the global information security and risk strategy.
- Gained management buy-in for a 3-year security strategy and roadmap that supported the formalization and transformation of the security program and posture.
- Introduced a security awareness and training program that improved adoption of security processes across the organization.

System Support Officer**Jul. 2002 - Feb. 2005**

Coca-Cola Hellenic Bottling Company (CCHBC) | Lagos, Nigeria

- Provided system support across manufacturing locations, including system performance monitoring, capacity planning, and implementation of IT strategic goals.

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- Information Systems Security Architecture Professional (ISSAP)
- Certified Cloud Security Professional (CCSP)
- PCI DSS Internal Security Assessor (PCI-ISA)
- ITIL v3 Foundation Certificate in Service Management
- PRINCE2 Foundation Certificate in Project Management

EDUCATION

- **Stanford LEAD Professional Certificate Candidate** | Stanford Graduate School of Business (GSB), California, USA | Expected 2027
- **Master of Science (MSc), Information Security** | Royal Holloway, University of London, London, UK | 2024
- **Bachelor of Science (BSc), Economics** | University of Lagos, Lagos, Nigeria | 2000

SELECTED PROFESSIONAL DEVELOPMENT

- **Stanford Graduate School of Business** - Completed Core LEAD Program Coursework: *Financing Innovation* and *Critical Analytical Thinking*, 2026.
- **AI-Assisted Software Development & Agentic AI Frameworks** - *Ed Donner / Udemy*, 2026.
- **PCI Internal Security Assessor (ISA) Re-Certification** – PCI Security Standards Council, 2026
- **Cyber Security and Executives** - Stanford University Advanced Certificate in Security, 2018
- **Storytelling for Influence** - IDEO U, 2019
- **Penetration Testing with Kali Linux** - Offensive Security, 2017
- **The 7 Habits of Highly Effective People for Managers** – Franklin Covey, 2012

INDUSTRY LEADERSHIP & PUBLIC SPEAKING

- **Member**, *CISO Division, CIO Association of Canada (CIOCAN)*, 2024 - Present
- **Member, Governing Body**, *Gartner Calgary CIO/CISO Community*, 2021 - Present
- **Panelist**, *"Building Effective OT Incident Response: How Should We React When Disaster Strikes?"* – CS4CA Conference, Calgary, 2026.
- **Speaker**, *"Improving Your Cyber Security Incident Response with COBIT 5"* – ISACA Calgary Chapter Conference, 2017
- **Speaker**, *"Building an Effective Vulnerability Management Program"* – ISACA Calgary Chapter Conference, 2017
- **Speaker**, *"The Human Side of Security: Building Successful User Awareness Programs"* – ISACA Calgary Chapter Conference, 2018
